

Ann
2482
Göttingen, 25th July, 1857.

My dear Sir,

Having received your kind letter
of the 8th July in the unannoying
about him of Whiston says, I feel
much obliged, that you will procure
a complete series of Mr. Wright's
Cuba plants at a reduced price, under
the condition, that I return as
far as possible their names. I accept
their proposition and shall pay
at due time for your order to
Mr. Böling of Hanburg, with whom
I keep a regular account.

But as I formerly expressed
the desire to get the plants as
quickly as possible, I must now
tell you, that I have the intention
to go in a few weeks to London and
to spend there nearly two months
for examining the Neffian plants
of Sir W. Hooker's herbarium: therefore

it would not be required, that Wright's
plants did arrive here before the middle
of October (when I shall certainly be
back again), and for saving money it
might be better to have them sent
by packet-ship v. Bremen. But if
Mr. Wright returns later than was
expected, or his plants are not ready
to be sent before September, then
I should prefer a steamer, in order
that I might get them immediately
after my return from London and be
able to send the names before the
end of the year: for I have just
then leisure to study them and I calcu-
late, that their comparison will
require about two months, if there
are about 600 species.

Fewer's Venezuela plants will
be acceptable and you may
send the set, which you offer,
(at the cost of 36#), together with
Wright's collection.

Erud.

The enclosures in your letter have been
delivered.

My catalogue of the Flora of Gu-
adeloupe and neighbouring islands, just
now printed, is to be dispatched to
you one of these days ^{either} by the ship
by the Prussianian Post-Office.

Leipzig.

Believe me most truly and faithfully,
as ever, Yours &c. G. Reinhardt.
